

MANY HOPES

---

2023 ANNUAL REPORT

## TO YOU FROM THE FOUNDER...

Hello and thank you!

You are about to read and see two things that you might struggle to believe.

In our work we get exposed to the unspeakable things that human beings do to other human beings. We see tremendous suffering and pain and we see humanity at its worst.

But then we get to see humanity at its absolute best. In the Many Hopes community of supporters (aka you) and partners and team and, most importantly, the children we serve, we are privileged and we are stunned every day. We see extraordinary sacrificial generosity. We see strength in adversity, we see love replace fear and honor replace shame and healing replace hurt and hope replace despair. We see survivors grow into adults with the capacity and character to help others.

This report is our best effort to help you see and feel some of what you make happen in Africa and Latin America and right here.

This report is inadequate. It is incomplete. But, such is the eternal, trajectory-shifting influence of your giving, there is no report that can completely or adequately communicate that to you. I hope this does a little bit. And please, as always, ask me anything.

Thank you for bringing many hopes to those who will one day bring many hopes to others.

*Gratefully,*  
Thomas Keown  
Founder and CEO  
[thomaskeown@manyhopes.org](mailto:thomaskeown@manyhopes.org)

A handwritten signature of Thomas Keown's name.

We believe that children who have survived an injustice can be the most powerful agents to defeat the injustice they survived. So we help them do that.

We **rescue** children in Africa and Latin America from slavery, abuse, and abandonment and **equip** them to become adults with the capacity and the character to help others.

Many Hopes is a global network of locally-led organizations committed to survivor-driven change.

#### **VISION**

In any community where Many Hopes works, outside charity will not be needed because local survivors and their friends are leading the fight for justice.

#### **MISSION**

Rescue children from injustice (trafficking, slavery, sexual abuse, abandonment) and equip them to be adults who can rescue others, so your impact never stops.

# In 2023, you have...

## RESCUED

**307**

boys and girls from slavery, sexual abuse, and extreme poverty.

## EQUIPPED

**2,381**

children with the skills and confidence they need to become adults with the capacity and the character to help others if they choose.

## LAUNCHED

**189**

young adults out of high school into college, employment, or entrepreneurship.

## RESCUE

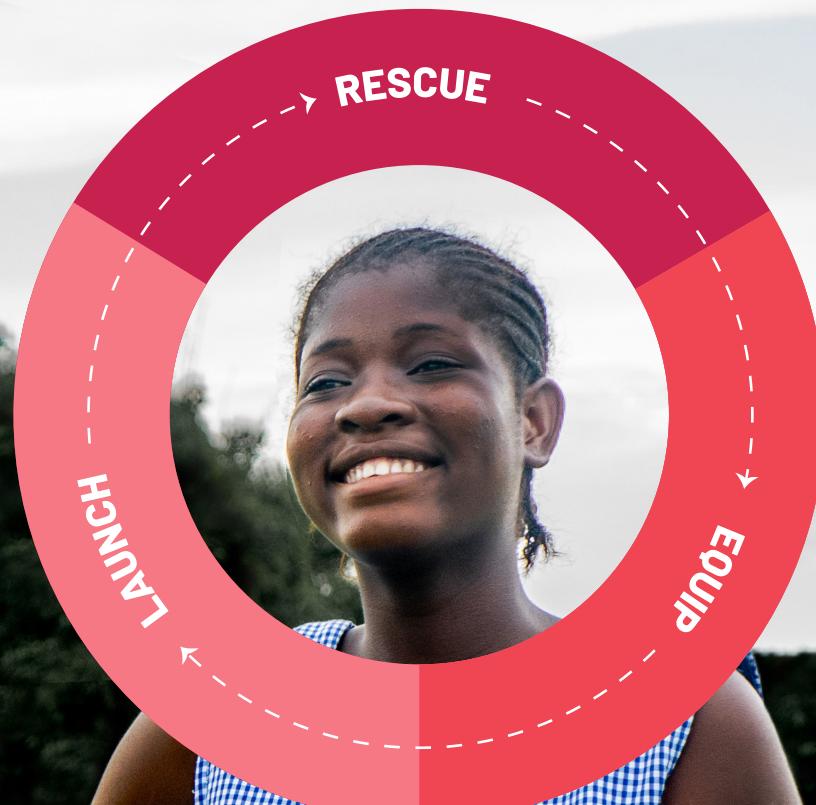

Getting children out of danger and into a loving home.

## EQUIP

Care and education until the end of high school.

## LAUNCH

Acceleration into college, employment, or entrepreneurship.

# In 2023, you provided rescue and care for 2,823 children.

We believe that work has to be locally led in order to be sustainable long-term. So we deliver all programming through high capacity local partners who are well networked in their communities. We only enter a region after we have developed a deep and mutually trusting relationship with a local partner.

# Rescue

*Getting children out of danger  
and into a loving home.*

---

**307 children** were rescued from slavery,  
trafficking, abandonment, and extreme  
poverty in 2023.

# Bolivia

**39 CHILDREN RESCUED**

**LOCAL PARTNER:** Alalay

**WHO:** Children who are living in the cold and danger of street life at high altitude in La Paz and Santa Cruz because they have fled homes of violence or extreme poverty.

**HOW:** You funded street outreach teams to slowly and patiently build relationships with children who had lost all reason to trust adults. When a child is ready, they voluntarily enter our local partner's rescue home and start school and their healing journey.

## RENOVATION

Renovated residential buildings to increase capacity from 102 to 200 children.

◀ “The Village” is a series of neat and tidy homes nestled into the mountains of Bolivia. Each home has a ‘dorm mom’ (many are beneficiaries of the program giving back) and a few of the homes have a ‘dorm dog’ who are truly living their best lives.

## HEALTH & NUTRITION

Expanded nutritional program for children. Most children enter malnourished and unwell. A nutritionist oversees meal planning to ensure each child receives the nutrition they need for healthy bodies and minds.

◀ Danny and Vamer flexing their muscles.

## BIRTHDAY CAKE

◀ Señorita Sylvia has been whipping up delicious meals for the kids for the past 12 years. Her favorite thing to make is birthday cakes, “no one has ever celebrated these kids’ birthdays before. But me, I’m going to celebrate them. I make a special cake. It’s a surprise. It makes me happy to see their faces.”

# Ghana

146 CHILDREN RESCUED

**LOCAL PARTNER:** Challenging Heights

**WHO:** Children trafficked and sold into slavery in the fishing industry of Lake Volta (the largest man-made lake in the world)

**HOW:** You funded rescue teams to identify, find, and liberate children from their slave masters by going boat to boat and village to village after multi-month investigations. After rescue, each survivor lives in the Recovery Center for 6-12 months before being reunited with family.

## FREEDOM

Rescued 146 children in 2023 (increase from 50 in 2020 made possible by recurring donations through The Rising and the seventy-two)

► These four boys were rescued from slavery and brought to safety in 2023. Thank you.

## PREVENTION

Hosted community outreach programs across the country to educate communities on how to identify trafficking and what to do when they see it.

## RENOVATION

Built new bathrooms and dining hall/auditorium/play area in Recovery Center.

▲  
Favorite meal at the Recovery Center?  
Jollof rice and fried chicken.

## UNDERCOVER INVESTIGATION

Hosted football tournaments that drew large crowds where Challenging Heights can gather intelligence on missing children.

## What's the Recovery Center in Ghana?

---

The Recovery Center is where children begin their healing journey after they are rescued from trafficking and slavery. The Recovery Center is home for 6-12 months before children are ready to be reunited with family members. While at the Recovery Center, children are enrolled in counseling programs and school so they can catch up with their peers.

### ARRIVAL

When children arrive to the Recovery Center after the 10+ hour journey from the lake, they are greeted by the Recovery Center staff. Rosemary, who leads the Recovery Center, welcomes each child by showing them their bunk. She puts a little piece of candy on their mattress, *“they are frightened when they arrive, and I want them to know they are in a good place and they are safe.”*

### COMFY BEDS & FRESH CLOTHES

Most children have never slept on a mattress before they arrive to the Recovery Center. The first few weeks, Rosemary does late night sweeps of the dorms where she places sleepy bodies that have navigated to the floor back in their bed.

Rosemary also gives each new arrival new clothing, *“the children have a difficult time understanding I’m giving them something and they are allowed to keep it. It’s theirs, I’m not expecting anything in return. They’ve never been given a gift before.”*

### THE FIRST FEW DAYS

During the first few days at the Recovery Center, children begin school and meet with counselors and social workers. More than 90% of children have never attended school before.

They are also seen by a doctor and receive a full panel of blood work. Many children arrive with malaria, some arrive with hepatitis or HIV. After years of medical neglect on the lake, it takes months, sometimes a lifetime, to regain health.

### THANK YOU

The Recovery Center is where childhoods are restored. Children learn to play and make friends, they sit in classrooms for the first time and whet their appetite for education. They experience the kindness of adults who have their best interest in mind and are championing their success. *Thank you for giving life and hope.*

# Guatemala

**29 CHILDREN RESCUED**

**LOCAL PARTNER:** EDELAC

**WHO:** Children living without parents or families in the streets of Xela.

**HOW:** Outreach teams and referrals identify children who meet our criteria. Children who are “totally orphaned” live in our full time care until they are ready for independent adulthood at the end of high school.

## 2023 Highlights

**RENOVATION:** Made repairs to the kitchen and bathrooms of the rescue home.

**WELLBEING:** Hosted camping retreats for children in the homes to have the opportunity to unwind and connect with nature.

▼ *Some of the girls you support at the rescue home in Guatemala taking a minute to pose for the camera during a birthday party.*

# Kenya

**61 CHILDREN RESCUED**

**LOCAL PARTNER:** Friends for Justice

**WHO:** Children (mostly girls but some boys) who have survived sexual abuse (rape, forced prostitution, incest).

**HOW:** Cases are referred by trusted friends in police or court. We provide the survivor with immediate health care, counseling, legal assistance, and full-time residential care until their court case is complete and they can enter family care (return to a safe family environment where the abusive family member has been removed and is in prison).

## 2023 Highlights

**RESCUE HOME:** We partnered with a local rescue and recovery center that had run out of funding to use their facility. Their excellent staff team stayed intact and we didn't have to build or buy property.

**LEGAL JUSTICE:** Assisted in 250 cases of child abuse in court.

▼ Boys in rural Kenya who previously could not afford school are now enrolled and catching up with their peers because of you.

# Malawi

**10 CHILDREN RESCUED**

**LOCAL PARTNER:** Pothawira

**WHO:** Girls and boys who have no parents, families, or homes.

**HOW:** Cases are referred by trusted friends and local networks. You help provide immediate health care, counseling, and full-time residential care until children are ready for independent adulthood at the end of high school.

## RENOVATION & REPAIRS

Renovated 12 rescue homes so children receive a higher standard of care:

- Repaired solar panels to provide 24/7 electricity
- Planted trees for shade (it gets hot!)
- Repaired vehicles

## SUSTAINABLE FARMING

Planted a fruit and vegetable garden so children can learn about agriculture as part of vocational training.

## MOMMAS

► There are a series of 12 duplexes that make up the homes in Malawi. Each home has a "Momma" who acts as the mother hen to her flock. The Mommas keep busy; they are frequently requested to attend weddings, births, and all celebrations in between for children who were once in their care and are now adults.

## A Place to Call Home

---

Recently, Pothawira received a two-year-old boy into the rescue homes who had been **abandoned by his parents**. Neighbors heard him crying alone in a house and knew that Pothawira existed.

**It is likely that his parents left him because they couldn't afford to take care of him and got so desperate they gave up.** You are helping make his future very different. **He now has a safe place to live and is enrolled in nursery school.** He is receiving therapy to help him heal and thrive. Thank you.

# Peru

**22 CHILDREN RESCUED**

**LOCAL PARTNER:** Asociación Nuevo Amenecer Juntos

**WHO:** 22 girls who have survived sexual abuse (rape, forced prostitution, incest).

**HOW:** Cases are referred by trusted friends in police or court. We provide the survivor with immediate health care, counseling, legal assistance, and up to two years of full-time residential care until she is ready to enter family care.

▼ Children in Peru rescued from sexual abuse and trafficking partaking in a group therapy session.

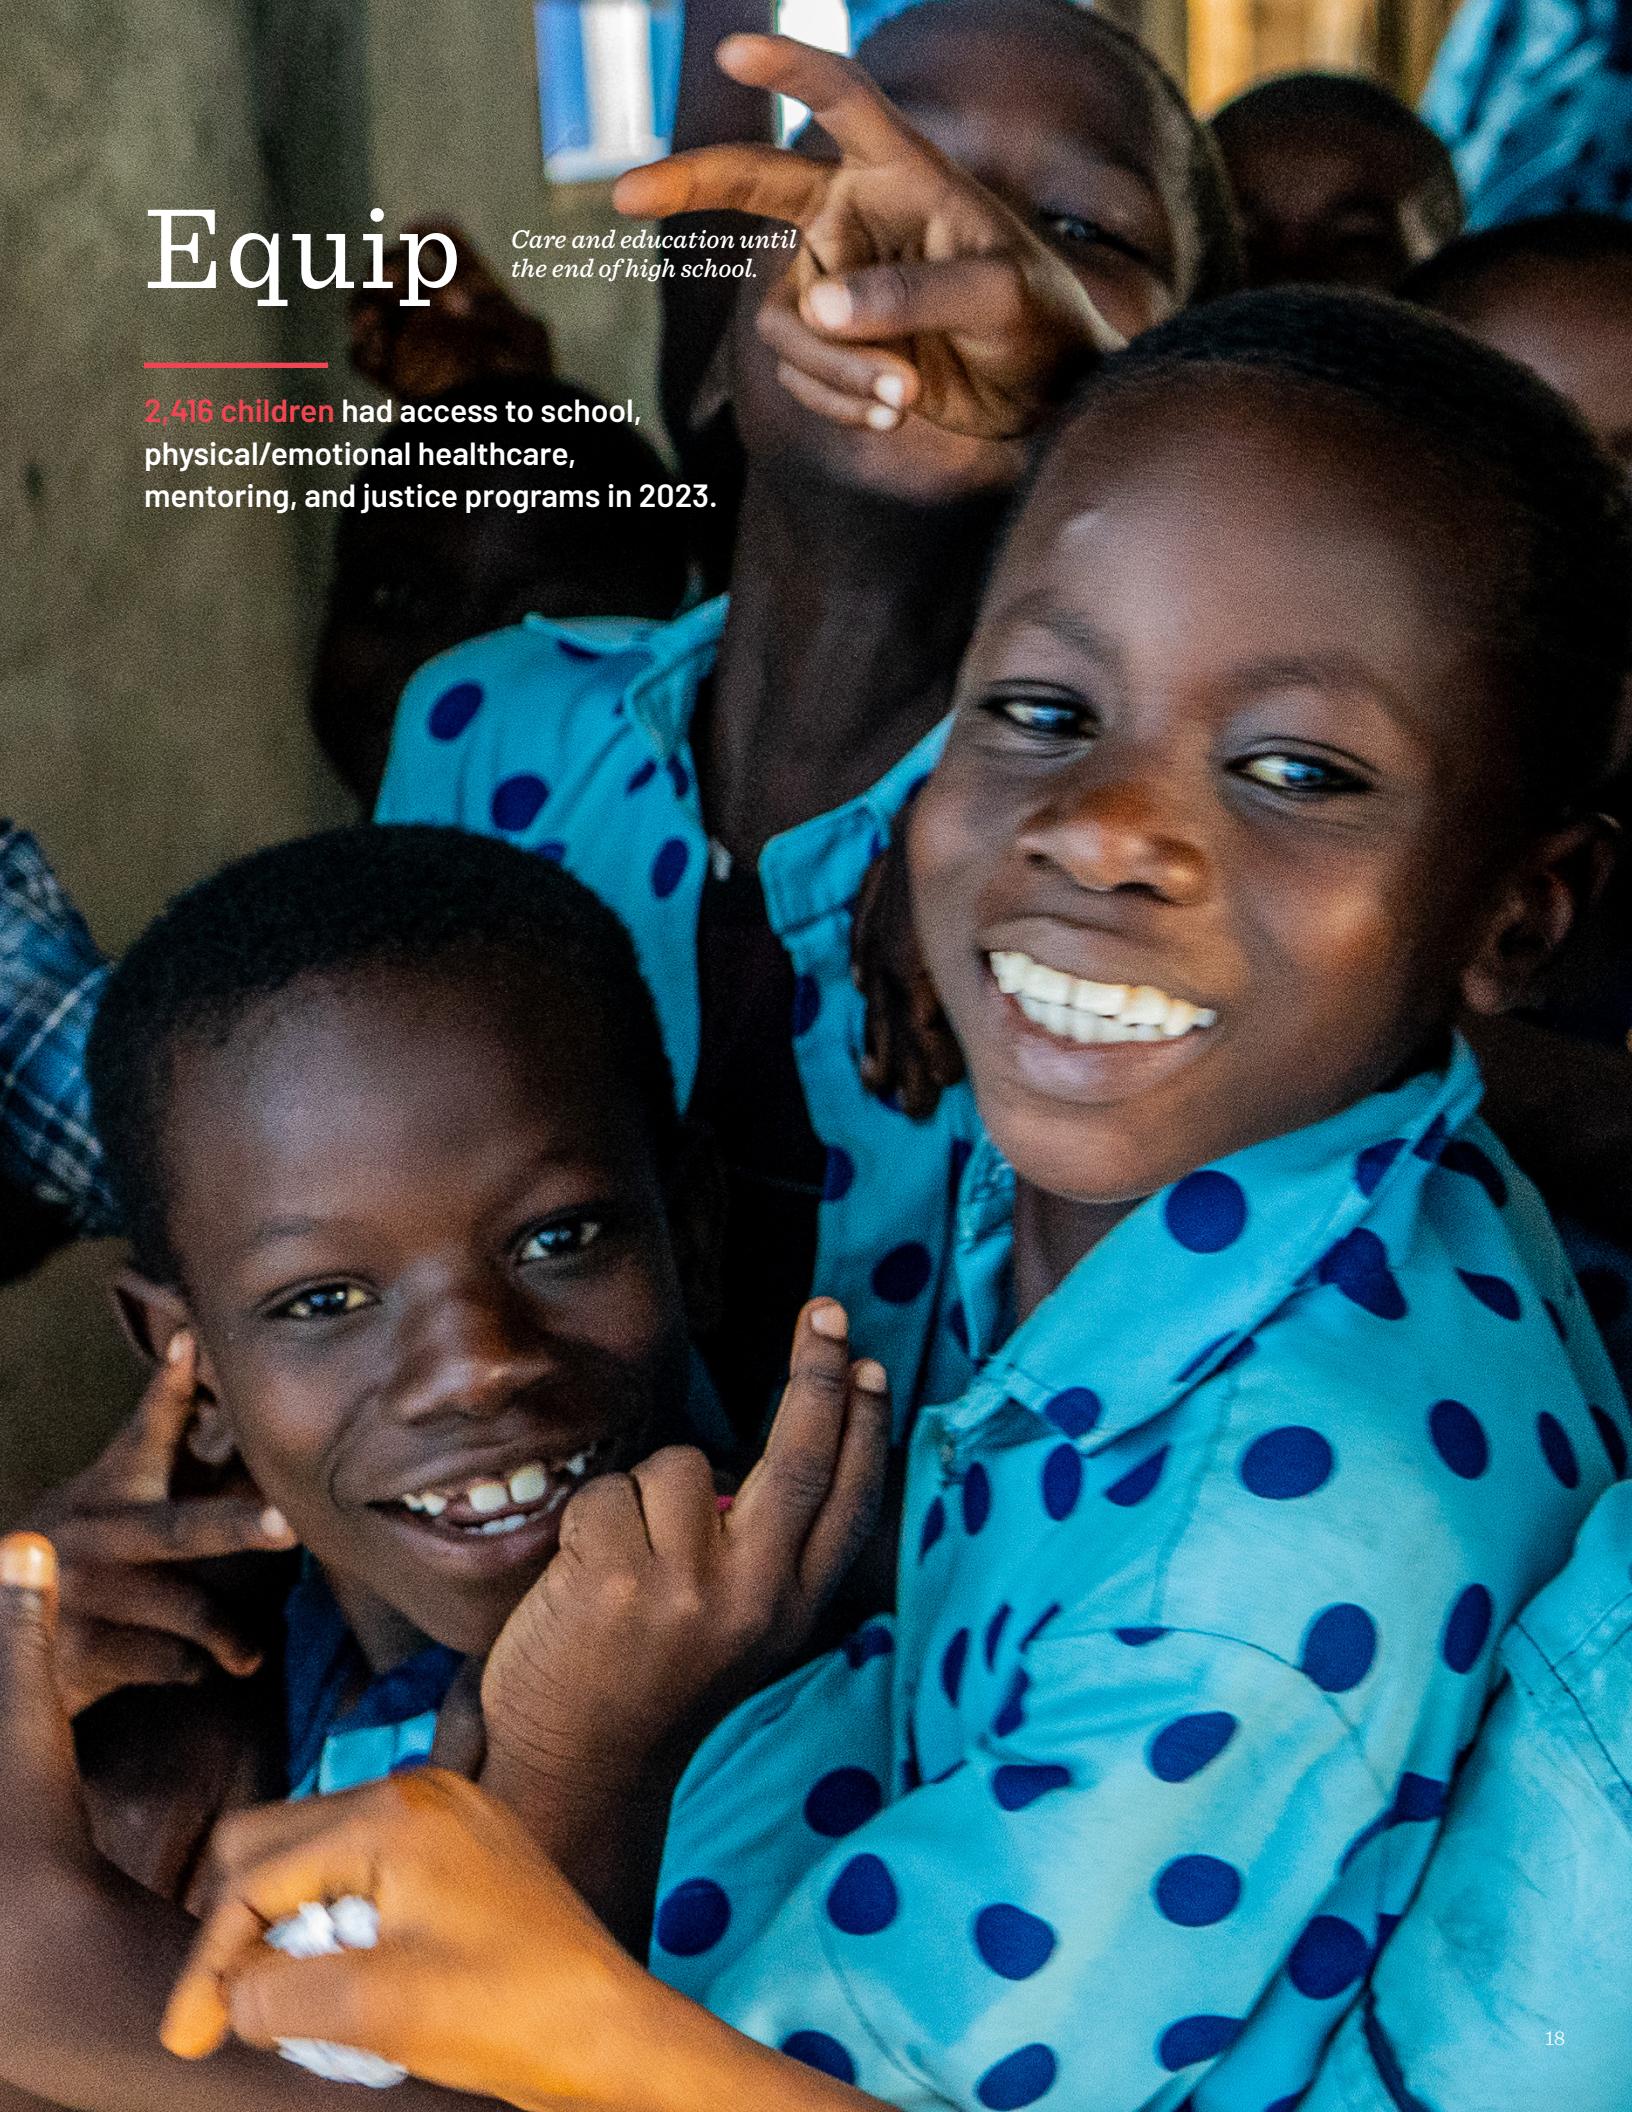

# Equip

*Care and education until  
the end of high school.*

---

**2,416 children had access to school,  
physical/emotional healthcare,  
mentoring, and justice programs in 2023.**

# Bolivia

**97 CHILDREN RECEIVED CARE & EDUCATION**

## 2023 Highlights

- Hired additional staff for after school homework programs and Montessori room.
- Had a team travel to the Children's World Cup (soccer)!
- Joined a national student government program to provide students the opportunity to meet and propose child-friendly policies to city/municipal leaders.
- Hosted different art workshops to provide students the opportunity to share their stories through photography, painting, and music.

▼ *Antonio in Bolivia working on the cover of a book report.*

# Ghana

**1,553 CHILDREN RECEIVED CARE & EDUCATION**

## 2023 Highlights

- 1,153 children enrolled in primary and secondary education.
- Created an enhanced aftercare program for high-capacity children to maximize their chances of college and leadership. Identified 400 rescued children to participate in pilot program.

**KWAME**

## Tricked into Slavery; Honored by Swedish Royal Family

When Kwame was 5 years old, he got the invitation of a lifetime. A nice couple came to his home and offered to take him to school. Kwame's parents never had money to send their children to school so they thought this was an answer to prayers. They packed up their son, kissed him goodbye, and sent him on his way, proud and hopeful of what the future held for their boy.

But there was no school. There was no future. Kwame had been trafficked into slavery in the fishing industry of Lake Volta, the largest man-made lake in the world.

**LIFE ON THE LAKE**

Seven days a week, 12 hours a day, Kwame worked. During the day, he hauled water and mended nets. At night, he fished. He didn't know how to swim but was forced to dive to untangle nets. The only light he had was the moon.

Kwame was given one meal a day by his slave master. He was beaten by whatever was close, usually a paddle. He was verbally abused. He often thought of his parents and wondered if they still believed he was in school.

**RESCUE**

Three long years later, Kwame was rescued by our Ghana partner, Challenging Heights. His slave master had told him that the men in the 'big boat' would hurt him, so Kwame was afraid when he was first carried onto the rescue boat. He was brought to our Ghana recovery center where *"all I had to do was get up in the morning, make my bed, shower, eat breakfast, go to school and then go to bed in the evening. And no one beat me or let me starve."*

**TODAY**

Today, Kwame has been reunited with his parents. He is currently a 7<sup>th</sup> grader and excelling in his studies. In September of 2023, he was selected by an international committee to travel to Sweden to be honored at the World Children's Prize that the Swedish Royal Family hosts and speak on the dangers of human trafficking and slavery.

▼ *Kwame with the Princess of Sweden during the World Children's Prize conference in 2023*

# Guatemala

**182 CHILDREN RECEIVED CARE & EDUCATION**

## 2023 Highlights

- Bought land for a new high school so we can take children all the way from rescue to readiness for college, employment, or entrepreneurship. Aiming to start building the high school in 2025 (ask us about our capital campaign to build this).
- Created a music program where students learn the marimba and other instruments.
- 87% of students graduated elementary school.

▼ *Fifteen years ago only 14% of girls attended elementary school in the city of Xela where the school you support is located. That number has grown to 48% thanks to you.*

# Kenya

**138 CHILDREN RECEIVED CARE & EDUCATION**

## 2023 Highlights

- Increased from 12 to 138 post-rescue students living with families and attending school.
- Launched pilot “Little Friends for Justice” clubs in schools to equip children to teach their peers their rights, how to recognize abuse, and what to do when they see it.
- Created an economic empowerment program to equip families of rescued children to generate revenue through small businesses (coconut oil and soap). After children leave the Rescue Center, they enter the care of families. Helping families generate revenue increases dignity and reduces financial need. There were 25 helped families in 2023.

## Little Friends for Justice

Children don't need or want to wait until they are adults to begin advocating for justice and helping to protect their friends. We partnered with the Kenya Department of Education to pilot a new way to help them do that. **Little Friends for Justice clubs are survivor-led groups in elementary and high schools** where children share their stories, educate each other on what their rights are, how to spot abuse in their community, and what to do about it. They **learn about prevention, protection, recovery, and about what healthy relationships look like**. Clubs are “sponsored” by two patrons, usually one female teacher and one male teacher but are driven by the children themselves. In Ghana, our partner creates similar programs called “Anti-Trafficking Clubs”.

- ▶ *Stella is one of the students you support. Stella is currently a senior in high school and is applying to university where she wants to study pre-med. She is pictured outside of her family's home.*

# Malawi

**424 CHILDREN RECEIVED CARE & EDUCATION**

## 2023 Highlights

- Finished building a computer lab and installed (semi) reliable internet (only 24% of Malawi has internet access but 100% of children in our programs do).
- 99% of 8<sup>th</sup> graders passed their grade 8 exams and are eligible for high school (there are not enough high schools in Malawi and so we...)
- Started building a high school so we can take children from point of intervention all the way to readiness for college, employment, or entrepreneurship (ask us about our capital campaign to support this).
- Started a structured guidance counseling program.

▼ *8<sup>th</sup> grade students in Malawi preparing for their final exams.*

# Peru

**22 CHILDREN RECEIVED CARE & EDUCATION**

# Launch

*Acceleration into  
college, employment,  
or entrepreneurship.*

---

**216 young adults** were provided access to university, vocational training or employment.

# Bolivia

**33 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- 20 adolescents from 16 years of age, including one person in university, were supported in technical training.
- Set up savings accounts and created financial literacy program for teens.

# Ghana

**25 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- 25 students in college in 2023.
- Expanded vocational training programs for teens (sewing, beauty, welding) so every child can acquire a skill that the employment market needs.

▼ *Thanks to your support, Eduafo is enrolled in an electrician apprenticeship. He's pictured with his aunt who is his number one cheerleader.*

**RUDOLPHO**

## Bolivia's Best Sportscaster

At the **age of six, instead of going to school**, Rudolpho was **working on the streets** calling out bus lines. He would be paid an extra \$2 a day if he agreed to work 24 hours a day. One night, he fell asleep on his bus route and the police picked him up. He was taken to our Bolivian partner, Alalay.

Alalay was Rudolpho's home until he left for university. **He received a partial scholarship to university, but didn't have the rest of the money so he went to the dean and asked for a job.** They hired him as the school's sports announcer to pay the remaining portion of his tuition. He'd never announced sports games before, but when the dean offered him the job he said "yes!" Then he went home and started watching games and taking notes.

In the **spring of 2023, Rudolpho graduated from university**. Additionally, he got so good at announcing sports, other channels in La Paz picked him up and he was one of the few selected reporters from Bolivia to broadcast the 2022 World Cup.

► *Rudolpho (and Toby) stand outside of their home.*

# Guatemala

**12 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- 12 students in college in 2023.
- 9 young adults started trades (e.g. mechanic, pastry chef, electrician).
- Set up savings accounts for older children to learn financial literacy.

▼ *Patricia pictured in her parents' home. She is the first person in her family to learn to read or write. She is currently in university studying business. While attending classes, she works as the librarian at our Guatemalan partner school, the school she attended.*

# Peru

**18 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- We are in year 3 of the “Opening Roads” program, a pilot program for young women who are post-high school. Opening Roads provides ongoing personal and professional mentoring and helps provide the support needed for survivors to finish high school and step into independence in employment, entrepreneurship, or college.

# Kenya

**86 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- 5 students in university.
- Jane Martha graduated university and started a graduate course.

# Malawi

**42 YOUNG ADULTS ENTERED POST-HIGH SCHOOL EDUCATION OR EMPLOYMENT**

## 2023 Highlights

- 42 college students in 2023.
- Two students (Bazwell and Jimmy) at university in the USA.
- Expanded vocational training to include sewing and mechanical repair programs.

► *Jane Martha graduated from Strathmore University in Kenya with a degree in business and technology. Thomas, the founder of Many Hopes, was there to cheer her on as she walked across stage.*

**BAZWELL**

## Changing Healthcare at Home

Bazwell was tall as a child. When his parents passed away, his uncle brought him to our Malawi partner, Pothawira. Bazwell was almost turned away because he looked much older than he was. **He was only eight years old when he was orphaned.**

He remembers his first few months at Pothawira. **It was the first time in his life where all he had to do was focus on school.** He didn't have to worry about where he was going to sleep, how he was going to get his next meal, where clothes would come from, or what would happen if he fell ill. Freedom from adult worries allowed him to begin catching up with the other 4<sup>th</sup> graders.

Bazwell performed so extraordinarily well in high school that, as a junior, he was given the **opportunity to study in the United States.**

After high school, Bazwell was admitted to Grand Canyon University in Arizona. He remembers how, growing up, his family was not able to access healthcare, which ultimately led to the preventable deaths of both his parents. So he **decided to study healthcare management. Bazwell wants to return to Malawi and be part of creating better healthcare systems there.**

Bazwell is set to graduate in the winter of 2024. After graduation, he hopes to gain a few years of work experience in healthcare administration before returning to Malawi to put what he's learned to use. Thank you for making that possible.

# Many Hopes USA

## 2023 Highlights

- Launched our movie “The Rising: A Story of Survivor-Driven Change” and it became the most successful campaign we have ever run. It inspired 3,500+ complete strangers to join our monthly giving program and provide predictable revenue to equip children.
- Led content trips to each partner location, capturing stories, photos, and videos.
- Board strengthened with three new members joining and two faithful servants rolling off.
- Improved financial operations: reorganized chart of accounts, engaged new financial audit and tax group, brought on part-time bookkeeper, migrated financial management firms and registered in more states because of growth of monthly giving program.
- Created Monitoring and Evaluation program and reporting system.
- Maintained platinum rating on Guidestar and 4-star rating on Charity Navigator.

▼ James Kofi Annan (Ghana partner lead) speaking at the New York City screening of *The Rising*.

A wide-angle photograph of several young children, likely between 5 and 12 years old, standing outdoors in a dry, open landscape under a clear blue sky. In the foreground, a boy on the left sticks his tongue out playfully. To his right, another boy looks directly at the camera with a neutral expression. Behind them, more children are visible, some pointing towards the camera or each other. The children are dressed in simple clothing, including t-shirts and jeans. The overall atmosphere is one of innocence and community.

## THANK YOU FOR YOUR PATIENCE & FAITHFULNESS

I am so grateful for your consistent support and partnership. Our vision of elevating survivors to make outside charity unnecessary in their communities is big and the road there is long. It requires stamina and innovation and risk and commitment.

But most of all it requires patience. What Eugene Peterson and Friedrich Nietzsche (very different characters!) describe as “long obedience in the same direction.”

That isn’t for everyone. I’m so thankful that it is for you.  
Thank you for making possible what you just read and saw.

*Gratefully,*  
Thomas Keown
